

# Greenslade Primary School

Greenslade is a successful, friendly and vibrant inner city school with a diverse balance of amazing children who aspire to be the very best they can be. We are passionately inclusive and the very supportive nature of our community enables everyone to be truly valued, respected and successful. Our curriculum is relevant and challenging and our children are engaged and focussed. They enjoy coming to school, behave well, and they love to learn!

The wonderful balance of cultural and socio-economic backgrounds of our children ensures that they learn as part of a wonderfully diverse group. Our philosophy of valuing the contribution of each member of our community means that we work in a positive environment in which people feel proud of their achievements, are respected for their opinions and strive toward their next step for improvement. We are passionate about our children having access to learning experiences of the highest quality in all areas and at all ages, learning using styles that reflect their differing strengths and needs.

Relationships are a great strength at Greenslade and the school is at the heart of a very close, aspirational learning community. We have extremely successful links with our Local Authority and all external agencies. We work collaboratively and in partnership with our neighbouring schools and children's centres.

Currently there are 206 children on roll between the ages of 4 and 11. We are a one-form entry school with a standard number of 30 children per class. A higher than average proportion of pupils are eligible for free school meals and we receive Pupil Premium funding for 18% of our children. The number of children on our register of Special Educational Needs is also higher than the national average at 18% and 15 of our children have EHCPs. We are proud of our wonderful balance of children, which is reflected in the fact that 63 % come from minority ethnic backgrounds and 37% speak a range of languages, some at a very early stage in learning English.

We are also very proud of our academic performance and the progress of children at Greenslade reflects the quality of learning that takes place here.

Our most recent OFSTED Inspection (April 2024) judged us to be a "Good School".

We have the potential to be "Outstanding" and are determined to be so!

David Ashley  
Headteacher.
